

# FEEDBACK FORM

Session Number:

Age range you were teaching:

Number of children in your group, and number of adult leaders/assistants:

1. How long was your session? Was there too much or too little content provided?

2. Did you follow the suggested order for your age group in the Intro, or did you do some things differently? (No problem with doing it differently—it's good to hear what it was!)

3. What worked well? (Do list more than one thing if you'd like to.)

4. What worked less well? (Again, do list more than one thing if necessary!)

5. Did you use the Bible Storybook for the "Bible Summary" section, or did you do something else there?

6. Which activity and craft (if any) did you use?

7. If you had to pick a child's age that this session worked best for (eg 3, 7, 12), what would that age be?

8. If you used the 8+ Bible teaching sheet, did the children do that with an adult, or themselves? How did it go?

9. If you used the 8+ sheet as part of teaching 5-11s, how did the timings work?

10. How easy or hard did you find it to get to grips with the Intro and Session Notes? Could anything be improved?

11. Do you have any other thoughts about this session?
